

Bank account

Although you can use your card without any problems in Poland, it would be advised to create a Polish bank account. Using foreign account for your reimbursement will result in additional costs because of the currency conversion.

If you decide to open a bank account in Poland, you should go to a bank with all required documents. To avoid going to a bank a couple of times and extending the whole process, you can call a chosen bank's helpline and explain your status (resident/non-resident) and ask about required documents, if the PESEL number is required, if there is an online banking system in English, if in all branches there is a possibility to speak to a consultant in English, and if you will be able to use all additional banking services.

Documents required by the selected banks in Poland (documents may change so it is best to consult with the helpline before going to a bank).

Bank	Required documents
Alior Bank	EU citizens: passport / residence card (permanent/temporary) / identity card Non-EU citizens: passport + residence card (permanent/temporary)
